---

## Career Objective

A highly motivated and passionate Information Technology undergraduate at the Sri Lanka Institute of Information Technology (SLIIT) with hands-on experience in full-stack development, database management, mobile application development, and UI/UX design. Seeking a software engineering internship, while also open to other IT-related internship opportunities, to contribute to innovative projects and further enhance my skills in a dynamic IT environment.

---

## Education

**BSc (Hons) in Information Technology**
*Specializing in Information Technology*
Sri Lanka Institute of Information Technology (SLIIT), Malabe
2023– Present

**G.C.E. Advanced Level (2022)**
Siridhamma College, Labuduwa

- Commerce Stream

---

## Technical Skills

- **Languages & Frameworks:** Java, Python, JavaScript, Kotlin, HTML, CSS
- **Web & Mobile Development:** React.js, Node.js, Express.js, MongoDB, MySQL, SQLite
- **Tools & Platforms:** Git, Apache Tomcat, Netlify, VS Code, Android Studio

## Soft Skills

- Teamwork, Communication, Leadership, Time management

---

## Projects

- **E-Farmer-Order and Delivery Management System**
  React.js, Node.js, MongoDB
  Developed **E-Farmer**, a full MERN stack web application connecting farmers directly with consumers. My contribution focused on **order processing and delivery management**, implementing **full CRUD operations**, building dynamic React components, and a responsive UI with real-time order and delivery tracking, streamlining e-commerce operations.
  https://github.com/kaveesha-senadheera/E-commerce-Web-Application

- **KnowVerse-Question and Answer System**
  HTML,Node,js,Express.js,MongoDB,JavaScript-Backend
  React.js,JavaScript,HTML,CSS-Frontend
  Developed a Question & Answer system as part of a study platform, a full MERN stack web application. My contribution focused on designing and implementing the **Question & Answer functionality** with **full CRUD operations**, real-time question analysis, automated scoring, and intelligent answer validation. Integrated Google Gemini AI for multi-subject answer correction (95%+ accuracy), and built features such as user voting, best answer selection, and a responsive UI to enhance student learning outcomes.
  https://github.com/kaveesha-senadheera/KnowVerse-Web-App-

- **Job Management System**
  HTML, CSS, JavaScript, PHP
  Designed and implemented a comprehensive web-based job posting management platform enabling administrators to create, manage, and approve job listings. Developed a full CRUD system with database integration and status-based workflow management.
  https://github.com/kaveesha-senadheera/Job-Management-System

- **To-Do-List App**
  Kotlin,SQLite
  A native Android mobile application built with Kotlin for managing daily tasks and to-do items. The app follows modern Android development practices with a clean architecture and implements **fully functional CRUD operations** for comprehensive task management.
  https://github.com/kaveesha-senadheera/TO-DO-LIST

- **Finance Tracker App**
  Kotlin
  **FinTrack** is a comprehensive personal finance management application built with Kotlin for Android. This app provides users with intuitive tools to track expenses, manage transactions, set budgets, and analyze their financial health through detailed reports and visualizations.
  https://github.com/kaveesha-senadheera/FinTrack

- **Personal Portfolio Website**
  HTML, CSS, JavaScript
  Created a responsive and animated personal portfolio to showcase skills, projects, and certifications.
  https://github.com/kaveesha-senadheera/Personal-Portfolio
