PROFESSIONAL SUMMARY

Highly motivated Information Technology undergraduate at the Sri Lanka Institute of Information Technology (SLIIT) with practical experience in full-stack web development, RESTful API development, database design, Android application development, and responsive user interface design. Proficient in React.js, Node.js, Express.js, MongoDB, Java, Kotlin, Python, and MySQL. Experienced in developing scalable MERN stack applications, implementing CRUD operations, integrating AI services, and collaborating using Git and GitHub. Passionate about software engineering, problem-solving, continuous learning, and building high-quality software solutions. Seeking a Software Engineering Internship or Full-Stack Developer Internship.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)
Bachelor of Science (Hons) in Information Technology
2023 – Present
Expected Graduation: 2027

Siridhamma College, Labuduwa
G.C.E. Advanced Level (Commerce Stream)
Completed 2022

TECHNICAL SKILLS

- **Languages & Frameworks:** Java, Python, JavaScript, Kotlin, HTML, CSS
- **Web & Mobile Development:** React.js, Node.js, Express.js, MongoDB, MySQL, SQLite
- **Tools & Platforms:** Git, Apache Tomcat, Netlify, VS Code, Android Studio

SOFT SKILLS

- Teamwork, Communication, Leadership, Time management
-

PROJECTS

KnowVerse – AI-Powered Academic Study Platform

React.js, Node.js, Express.js, MongoDB, Google Gemini AI

- Developed the Question & Answer module for a MERN stack academic learning platform.
- Designed and implemented secure CRUD operations using React.js, Express.js, and MongoDB.
- Integrated Google Gemini AI for automated answer evaluation and intelligent validation.
- Built RESTful APIs and implemented user voting and best-answer selection.
- Collaborated using Git and GitHub in an Agile team environment.

E-Farmer – Order & Delivery Management System

React.js | Node.js | Express.js | MongoDB

- Developed Order Processing and Delivery Management modules for a MERN stack e-commerce platform.
- Implemented complete CRUD functionality for orders and delivery records.
- Built responsive React components and reusable UI modules.
- Developed backend REST APIs using Express.js.
- Integrated MongoDB database for efficient data management.
- Improved user experience through real-time order tracking

<https://github.com/kaveesha-senadheera/E-commerce-Web-Application>

Finance Tracker Mobile App

Technologies: Kotlin, Android

- Developed an Android application for personal finance management.
- Implemented expense tracking, budgeting, and transaction management.
- Designed an intuitive mobile interface following Android development best practices.

<https://github.com/kaveesha-senadheera/FinTrack>

To-Do List Mobile App

Technologies: Kotlin, SQLite

- Developed a native Android task management application.
- Implemented complete CRUD functionality with SQLite database integration.
- Designed a clean and user-friendly interface for daily task management.

<https://github.com/kaveesha-senadheera/TO-DO-LIST>

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Designed and developed a responsive portfolio website showcasing projects and technical skills.
- Implemented modern animations and responsive layouts for an improved user experience.
